1 Introduction....1
2 Completions....4
3 Projections....9
4 Five Year Land Supply Calculations....13
5 Appendix....15

1 Introduction

1.1 This document provides a housing monitoring update for East Devon District Council to a base date of **31 March 2019**. The report considers the following:

- Housing completions over a 12 month period (1 April 2018 – 31 March 2019) including:
  - Total net completions district wide (including by parish),
  - Breakdown of completions on brownfield and greenfield sites, and
  - Affordable housing;
- Housing projections and housing trajectory for the Local Plan period;
- Five year land supply calculations for the period 1 April 2019 to 31 March 2024.

1.2 Section 113 of the Localism Act (2011) removed the requirement for Councils to submit an Annual Monitoring Report (AMR) to the Secretary of State, but allowed monitoring reports to be produced covering individual indicators which must be published at least once a year. This housing monitoring update complies with that requirement.

1.3 The National Planning Policy Framework (NPPF) requires Councils to be able to demonstrate a five year supply of land for housing plus either a 5%, 10% or 20% buffer requirement depending on such factors as demonstrating a supply through an annual position statement or recently adopted plan, or past performance. Paragraph 73 of the NPPF states that local planning authorities should:

"include a trajectory illustrating the expected rate of housing delivery over the plan period, and all plans should consider whether it is appropriate to set out the anticipated rate of development for specific sites. Local planning authorities should identify and update annually a supply of specific deliverable sites sufficient to provide a minimum of five years' worth of housing against their housing requirement set out in adopted strategic policies, or against their local housing need where the strategic policies are more than five years old. The supply of specific deliverable sites should in addition include a buffer (moved forward from later in the plan period) of:

a) 5% to ensure choice and competition in the market for land; or

b) 10% where the local planning authority wishes to demonstrate a five year supply of deliverable sites through an annual position statement or recently adopted plan, to account for any fluctuations in the market during that year; or

c) *20% where there has been significant under delivery of housing over the previous three years, to improve the prospect of* achieving the planned supply*."*

1.4 In addition to this, paragraph 11 of the NPPF states:

"Plans and decisions should apply a presumption in favour of sustainable development.

*For **plan-making** this means that:*

a) plans should positively seek opportunities to meet the development needs of their area, and be sufficiently flexible to adapt to rapid change;

b) strategic policies should, as a minimum, provide for objectively assessed needs for housing and other uses, as well as any needs that cannot be met within neighbouring areas, unless:

i. the application of policies in this Framework that protect areas or assets of particular importance provides a strong reason for restricting the overall scale, type or distribution of development in the plan area; or

ii. any adverse impacts of doing so would significantly and demonstrably outweigh the benefits, when assessed against the policies in this Framework taken as a whole.

*For **decision-taking** this means:*

c) approving development proposals that accord with an up-to-date development plan without delay; or

d) where there are no relevant development plan policies, or the policies which are most important for determining the application are out-of-date, granting permission unless:*

i. the application of policies in this Framework that protect areas or assets of particular importance provides a clear reason for refusing the development proposed; or

ii. any adverse impacts of doing so would significantly and demonstrably outweigh the benefits, when assessed against the policies in this Framework taken as a whole.

**This includes, for applications involving the provision of housing, situations where the local planning authority cannot demonstrate a five year supply of deliverable housing sites (with the appropriate buffer); or where the Housing Delivery Test indicates that the delivery of housing was substantially below (less than 75% of) the housing requirement over the previous three years – see paragraphs 1.7 to 1.11 below.*

1.5 This report considers the extent to which extant permissions (including sites currently under construction or 'sleeping') and future windfalls contribute towards meeting the five year requirement.

1.6 The Ministry of Housing, Communities & Local Government's National Planning Policy Framework (NPPF) can be found at: https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/810197/NPPF_Feb_2019_revised.pdf

Housing Delivery Test

1.7 Since November 2018, Councils have also had to pass the new Housing Delivery Test (HDT). Rather than simply looking at what *can* be achieved over the following five years, the HDT checks what *has* been achieved over the previous three.

1.8 The HDT compares the delivery of housing over the past three years against the required amount, with delivery of the full amount resulting in a score of 100%.

1.9 The HDT comprises three elements:

i) If delivery has been less than 95%, the Council should prepare an Action Plan to address the reason for the shortfall;
ii) If delivery has been less than 85%, the Council should also include a 20% buffer in calculating its Five Year Land Supply (rather than 5% or 10%);
iii) If delivery has been less than 75%, the presumption in favour of sustainable development would then apply (as a transitional provision, the threshold in the third element was set at 25% for last year's test and will be 45% for this year's, the results of which are scheduled to be published in December).

1.10 The results of the first HDT (covering 2015/16 to 2017/18) were released in February 2019. East Devon District Council passed the test with a score of 149%. The list of results can be found at:

https://www.gov.uk/government/publications/housing-delivery-test-2018-measurement

1.11 The Ministry of Housing, Communities & Local Government's HDT Measurement Rule Book can be found at:

https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/728523/HDT_Measurement_Rule_Book.pdf

2 Completions

How do we know if a house has been completed?

2.1 Housing completions are monitored throughout the year using the Housing Monitoring database (which uses the Microsoft Access platform), which is linked to the main EDDC Uniform database. This includes new builds, change of uses and conversions.

2.2 When the Basic Land and Property Unit (BLPU) state of any given dwelling's Unique Property Reference Number (UPRN) changes (to BLPU State 2 – 'In Use' and a Primary Classification of 'Residential') within Uniform (i.e. a property is Council Tax banded), this will feed through to the appropriate planning record on the Housing Monitoring database.

How is a "dwelling" defined?

2.3 For the purposes of housing monitoring, generally, a dwelling is defined as being a separately Council Tax banded property. As an example, this would mean that if a house that had previously been a single Council Tax banded dwelling were to be split into four flats, each being separately Council Tax banded, then there would be an assumed three net new dwellings on the site upon completion.

2.4 The above definition means that annexes are not counted as a dwelling unless they become separately Council Tax banded. By becoming Council Tax banded, the annexe is recognised as a self-contained dwelling. Despite the fact that it may still be tied conditionally to be used ancillary to the main dwelling, it is serving the purpose of a self-contained dwelling and therefore should still be counted as such for the purposes of monitoring.

2.5 In addition to this, the Housing and Economic Land Availability Assessment (HELAA) methodology for the Exeter Housing Market Area (HMA) April 2017 states that care and extra-care homes should contribute towards dwelling numbers despite units not being separately Council Tax banded. The reasoning for this is that as elderly people move into care / extra-care homes they "free up" open market dwellings for others to move into.

2.6 The methodology conservatively assumes that one dwelling is freed up by every two nursing or care home beds created. This is based on primary research conducted within the HMA whereby existing care homes were contacted to find out numbers of residents, the proportion that were permanent and the proportion that had previously lived alone. This research suggested that on average 50% of residents were permanent and had previously lived alone which suggests that when they permanently moved to the care home they were leaving an empty house.

n.b. New care/nursing home places in the October 2013-March 2014 monitoring period assumed 1.4:1 as a ratio, whilst from April 2014 to September 2014 1.67:1 was the assumed ratio. The Government's new Housing Delivery Test uses a ratio of 1.8:1.

Total completions

2.7 A full schedule of completions and projections with planning permission by site from the start of the Local Plan period can be found in the appendix to this report. As shown in the table below, over the 12 month period 1 April 2018 to 31 March 2019, a net total of 929 dwellings have been completed in East Devon. This includes 392 at the district's "West End" and 537 in the Rest of East Devon.

	Apr 2014 – Mar 2015	Apr 2015 – Mar 2016	Apr 2016 – Mar 2017	Apr 2017 – Mar 2018	Apr 2018 – Mar 2019
West End	531	403	335	326	392
Rest of East Devon	498	624	389	540	537
Annual TOTAL	**1,029**	**1,027**	**724**	**866**	**929**

2.8 The number of completions in 2018/19 is the highest since 2015/16, with an increase of 63 on the 2017/18 monitoring period and 205 on 2016/17. But with an average level of completions of 915 over the last five years, the actual supply is currently falling below annual average projected needs.

2.9 Fifty-eight per cent of the dwellings built in 2018/19 were in the Rest of East Devon (i.e. not in the West End), with 42% constructed in the West End.

2.10 As the Cranbrook expansion sites at Bluehayes, Treasbeare, Cobdens and Grange see completions over the next few years, it is anticipated the share of completions in the West End compared to the Rest of East Devon will become greater.

Completions by parish

2.11 The table below shows net completions during the 2018/19 monitoring period by parish. Parishes where there has been no net change are not listed. A negative figure indicates demolitions / changes in use away from residential have outweighed completions. Town councils are highlighted in yellow.

Parish	Total	Parish	Total
Awliscombe	2	Gittisham	27
Axminster	56	Honiton	13
Aylesbeare	7	Kilmington	3
Beer	3	Lympstone	8
Branscombe	1	Membury	1
Broadclyst	186	Musbury	2
Broadhembury	3	Newton Poppleford	4
Buckerell	1	Ottery St Mary	80
Budleigh Salterton	4	Payhembury	6
Chardstock	4	Plymtree	1
Clyst Honiton	2	Rewe	1
Clyst Hydon	1	Rockbeare	3
Clyst St George	5	Seaton	49
Clyst St Mary	1	Sidmouth	13
Colyton	2	Southleigh	2
Combe Raleigh	2	Sowton	43
Cranbrook	207	Stockland	-1
Dunkeswell	10	Upton Pyne	1
Exmouth	133	West Hill	15
Farringdon	1	Whimple	3
Farway	1	Woodbury	16
Feniton	5	Yarcombe	2

Greenfield / brownfield split

2.12 The table below shows the breakdown of completions between greenfield and brownfield sites during the 2018/19 monitoring period. Greenfield describes any site on land which has not previously been developed. Brownfield therefore describes sites of previously developed land, the definition of which can be found within the glossary of the NPPF but is reproduced below for ease of reference:

*"**Previously developed land:** Land which is or was occupied by a permanent structure, including the curtilage of the developed land (although it should not be assumed that the whole of the curtilage should be developed) and any associated fixed surface infrastructure. This excludes: land that is or was last occupied by agricultural or forestry buildings; land that has been developed for minerals extraction or waste disposal by landfill, where provision for restoration has been made through development management procedures; land in built-up areas such as residential gardens, parks, recreation grounds and allotments; and land that was previously developed but where the remains of the permanent structure or fixed surface structure have blended into the landscape."*

		Dwgs	%
Greenfield	General	674	73%
	Agricultural / Forestry Building Conversion	22	2%
	Garden Sites	45	5%
	TOTAL	741	80%
Brownfield	Redevelopment	148	16%
	Conversions / COUs	40	4%
	TOTAL	188	20%
	GRAND TOTAL	929	100%

2.13 The table above shows that 80% of completions in the district during the 2018/19 monitoring period were on greenfield sites, which is 1% less than during the 2017/18 monitoring period.

Affordable completions

2.14 The Housing Needs and Strategy team report a total of 237 affordable units having being delivered during 2018/19, including 16 properties that have been purchased from the open market.

Key facts for the year

- Sixty-eight affordable units delivered at Cranbrook;
- EDDC bought 16 properties from the open market using right to buy receipts and HRA funding including an HMO for temporary accommodation;
- Thirty-four social rented units, 79 affordable rented and 124 shared ownership units delivered;
- The first affordable housing provided in Seaton for a number of years by Baker Estates & Livewest;
- First affordable units at Tithebarn ('West End') delivered;
- Eighteen new units delivered in Exmouth at Plumb Park and Waters Edge which EDDC helped to facilitate;
- First affordable units at Hayne Lane, Honiton site delivered.

Windfall completions

2.15 Windfalls refer to sites built out which are the result of speculative planning applications. They have not been allocated by the current, previously adopted or any emerging Draft Plans.

2.16 The table below shows that over the past 12 months 394 of the 929 net completions have been windfalls. This equates to 42.4% of all completions in the last year. However, of these 394 net windfall completions, 62 were in the West End (49 at Old Park Farm II, 11 at Moonhill Copse and 2 at Shermoor Farm, Broadclyst) and the remaining 332 were in the Rest of East Devon. This means that of the 537 net completions in the Rest of East Devon, 61.8% were windfalls.

Gross site capacity	1-2 dwellings	3-5 dwellings	6-9 dwellings	10-20 dwellings	21+ dwellings	TOTAL
RoED	106	50	28	34	114	332
West End	0	2	0	0	60	62
TOTAL	106	52	28	34	174	394
Percentage	26.9%	13.2%	7.1%	8.6%	44.2%	100%

2.17 In addition to the headline totals, the above table shows how many windfalls have been delivered on sites of different sizes. The gross site capacity refers to the gross number of dwellings due to be delivered on a site as a whole. As an example, if 2 windfall dwellings were completed in the last 12 months on a site due to take a total of 5 gross new dwellings they would be listed in the 3-5 dwellings column.

2.18 In terms of calculating five year land supply, paragraph 70 of the NPPF allows for future windfalls to be counted towards supply, however the figure should not include residential gardens:

"Plans should consider the case for setting out policies to resist inappropriate development of residential gardens, for example where development would cause harm to the local area."

2.19 This being the case, the assessment below shows the number of net windfall completions in the last year on sites other than back gardens. Further analysis of windfalls for the purposes of projections can be found in section 3.

Gross site capacity	1-2 dwellings (excluding garden-greenfield sites)	3-5 dwellings (excluding garden-greenfield sites)	6-9 dwellings (excluding garden-greenfield sites)	10-20 dwellings (excluding garden-greenfield sites)	21+ dwellings (excluding garden-greenfield sites)	TOTAL
RoED	68	43	28	34	114	287
West End	0	2	0	0	60	62
TOTAL	68	45	28	34	174	349
Percentage	19.5%	12.9%	8.0%	9.7%	49.9%	100%

3 Projections

3.1 This section is an assessment of projected completions for the remainder of the plan period. The adopted Local Plan runs from 2013 to 2031.

3.2 Projections are broken down into:

- Extant permissions -
  - These are sites that already have planning permission (either in full or outline and including sites that are already under construction / sleeping) that are expected to be built out;
- Future windfalls -
  - These are an allowance for completions on windfall sites that do not yet have permission, based on historic windfall completions;
- Axminster Masterplan -
  - These are predicted completions at the Axminster Masterplan site, with applications 19/0108/MOUT, 19/1074/MOUT and 19/0150/MFUL currently pending consideration;
- Cranbrook expansion zones -
  - These are predicted completions on the four Cranbrook expansion zones – Treasbeare, Bluehayes, Cobdens and Grange.

3.3 The latest edition of the National Planning Policy Framework (NPPF) includes a new definition of a “deliverable” site:

To be considered deliverable, sites for housing should be available now, offer a suitable location for development now, and be achievable with a realistic prospect that housing will be delivered on the site within five years. In particular:

a) sites which do not involve major development and have planning permission, and all sites with detailed planning permission, should be considered deliverable until permission expires, unless there is clear evidence that homes will not be delivered within five years (for example because they are no longer viable, there is no longer a demand for the type of units or sites have long term phasing plans).

b) where a site has outline planning permission for major development, has been allocated in a development plan, has a grant of permission in principle, or is identified on a brownfield register, it should only be considered deliverable where there is clear evidence that housing completions will begin on site within five years.

3.4 This means, unlike in the previous Housing Monitoring Update, some allocated sites and sites with acknowledged development potential have not been included in projections for the Council’s updated Five Year Land Supply.

3.5 Projections are based on the status of sites and extant planning permissions at 01 April 2019 unless pertinent additional information has arisen since that date to aid understanding of delivery (e.g. commencement information) such as Goodmores Farm, Exmouth which is now in the process of being approved.

3.6 Projected build out rates for sites generally follow the approach advocated by the Exeter Housing Market Area (HMA) Housing and Economic Land Availability Assessment (HELAA) methodology market conditions model, unless we are aware of an alternative build out rate:

	Commencement of sites			Build out rate	
Size of site (no. of dwellings)	**Sites where dwellings are under construction**	**Sites where dwellings have planning permission**	**Suitable sites without planning permission**	**Years 1-5**	**Years 6+**
1-15 dwellings (assumes one developer)	Commence in Year 1	Commence in Year 1	Commence in Year 3	1st year - 12 dwellings maximum 2nd year onward - 25 dwellings per year maximum	1st year - 25 dwellings maximum 2nd year onward - 50 dwellings per year maximum
16-500 dwellings (assumes one developer)	Commence in Year 1	Commence in Year 2	Commence in Year 3	1st year - 12 dwellings maximum 2nd year onward - 25 dwellings per year maximum	1st year - 25 dwellings maximum 2nd year onward - 50 dwellings per year maximum
501-1,000 dwellings (assumes two developers)	Commence in Year 1	Commence in Year 3	Commence in Year 4	1st year - 12 dwellings maximum 2nd year onward - 50 dwellings per year maximum	1st year - 25 dwellings maximum 2nd year onward - 100 dwellings per year maximum
1001+ dwellings (assumes three developers)	Commence in Year 1	Commence in Year 3	Commence in Year 4	1st year - 12 dwellings maximum 2nd year onward - 75 dwellings per year	1st year - 25 dwellings maximum 2nd year onward - 150 dwellings per year

Windfall projections

3.7 As mentioned, paragraph 70 of the NPPF allows for future windfall completions to be taken into account so long as historic windfall delivery is considered and with the implication that sites on gardens are not counted.

3.8 The Exeter HMA HELAA methodology sets out a clear process by which windfalls will be calculated assessing delivery of windfalls (excluding gardens and sites of more than 20 gross dwellings) over the last five full years. That being the case, the assessment below shows net windfall completions (excluding gardens) over the last five full years (1 April 2014 to 31 March 2019).

3.9 Net completed windfall dwellings are split into the gross capacity of the site on which they came forward in order to be able to analyse the types of windfalls that might come through in the future.

Gross site capacity	Apr 2014 to Mar 2015	Apr 2015 to Mar 2016	Apr 2016 to Mar 2017	Apr 2017 to Mar 2018	Apr 2018 to Mar 2019	Average per year
1-2 dwgs	37	70	56	75	68	61.2
3-5 dwgs	21	53	49	58	45	45.2
6-9 dwgs	16	37	6	31	28	23.6
10-20 dwgs	58	50	54	56	34	50.4
Totals	132	210	165	220	175	180.4

3.10 The table above identifies a basic net average windfall projection of 180 dwellings. The methodology then requires this figure to be tempered by projected windfall completions on sites with planning permission or resolution to grant permission subject to S106. The table below shows how this figure is tempered accordingly.

Final projected windfall allowance	**2019 to 2020**	**2020 to 2021**	**2021 to 2022**	**2022 to 2023**	**2023 to 2024**
Total windfall sites with permission	549	494	295	198	243
Of which sites that are on developments of 20 or less dwgs and not on garden-greenfield land	236	208	91	78	113
Basic windfall projection (A)	180	180	180	180	180
Total eligible net windfalls (B)	236	208	91	78	113
Adjusted windfall projection (A-B)	0	0	89	102	67

3.11 Of course this is still a conservative estimate and in reality larger windfall sites will on occasion come forward for development as will garden sites.

Overall projections and trajectory

3.12 Having gone through the various elements of supply above, the tables below set out the projected development for the plan period to 31 March 2031.

Tables of projected housing completions for 2019/20 to 2030/31

Year	Extant permissions (including Goodmores Farm, Exmouth)	Axminster Masterplan projections	Cranbrook expansion zones projections	Predicted windfalls	Total projections	Year	Extant permissions (including Goodmores Farm, Exmouth)	Axminster Masterplan projections	Cranbrook expansion zones projections	Predicted windfalls	Total projections
2019/20	1,207	0	0	0	1,207	2025/26	388	72	525	180	1,165

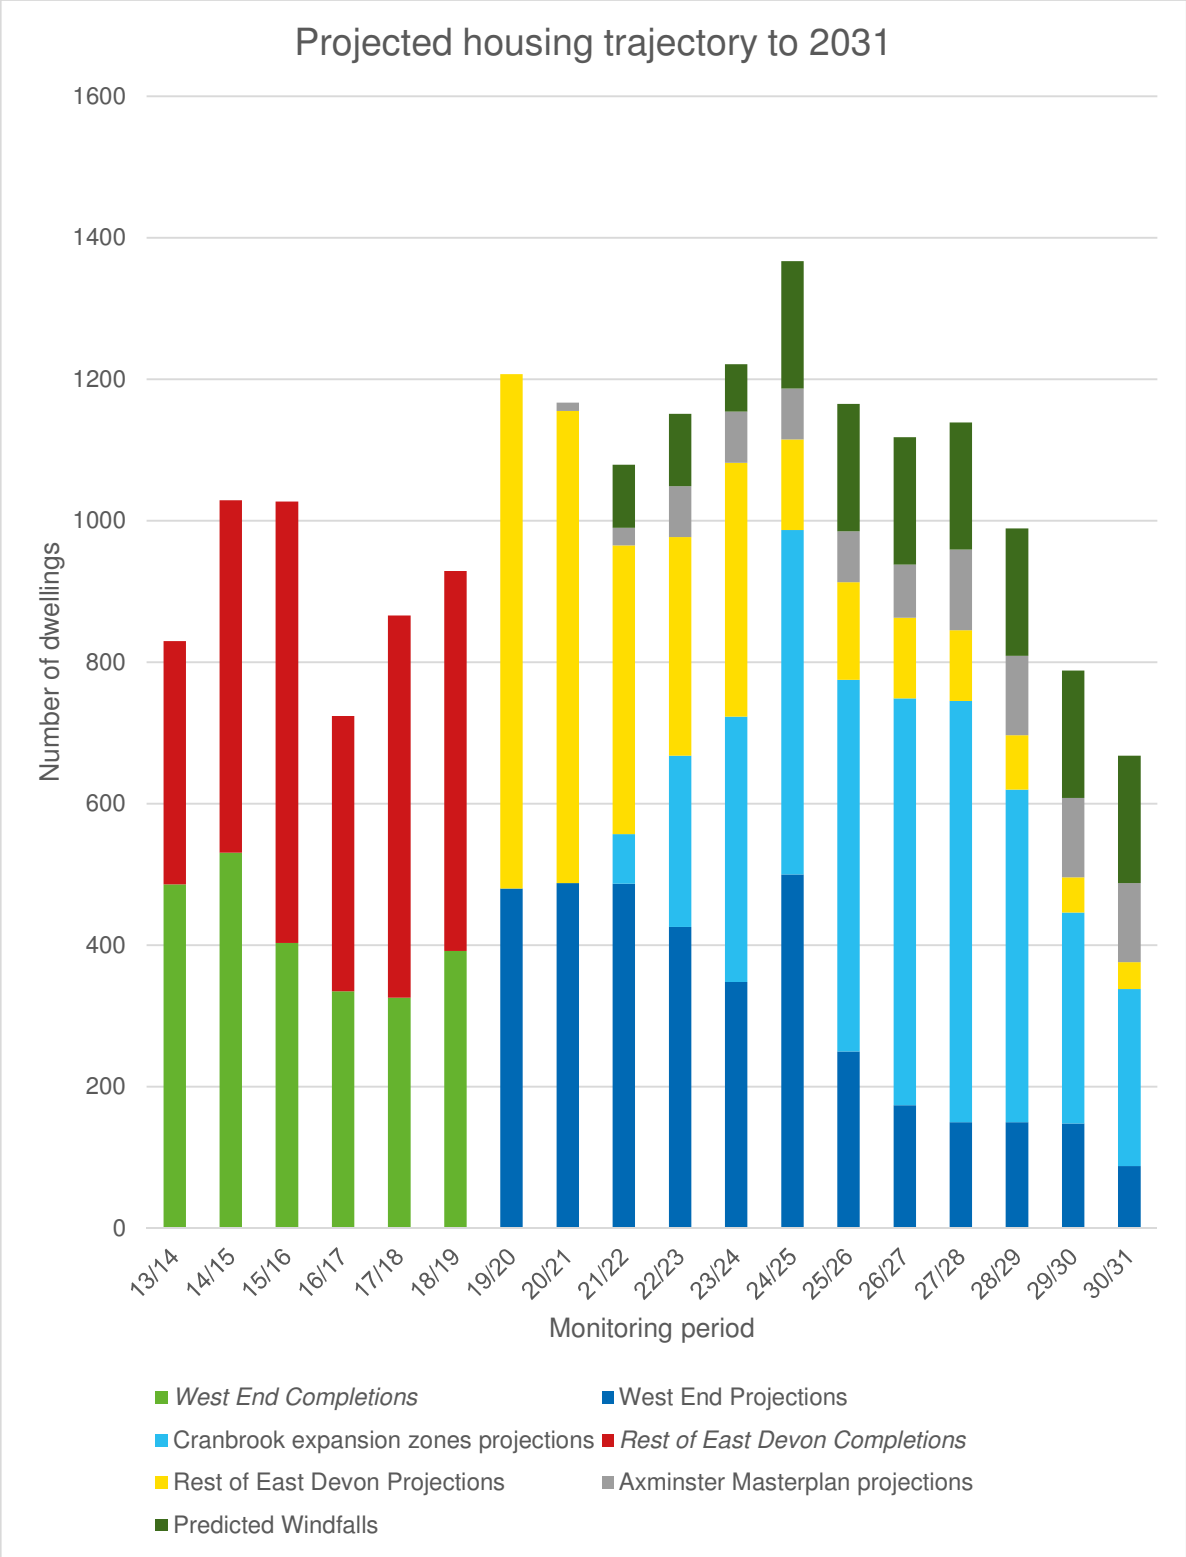
Totals	**1,207**	**1,167**	**1,079**	**1,151**	**1,221**	1,367	1,165	1,118	1,139	989	788	668
	5,825 ←					**Projected five year housing delivery for 2019/20 to 2023/24**						

3.13 The graph below shows the breakdown of different sites making up the housing trajectory projected to 2031:



4 Five Year Land Supply Calculations

4.1 The point of demonstrating a five year land supply is to ensure that there is enough housing coming forward to meet requirements. On top of this, the current Government is seeking to increase housing delivery in the immediate future by requiring Councils to demonstrate a minimum of 5% extra provision, increasing to 20% in places where delivery has persistently been below requirements.

4.2 The Council does not have a pattern of persistently delivering below housing requirements (neither Local Plan levels or more so Government Housing Delivery Test numbers) and therefore it is appropriate to apply a 5% buffer.

4.4 The adopted Local Plan has a housing requirement of 17,100 new homes for the 2013-2031 plan period, equivalent to an average of 950 dwellings per annum.

Five year land supply calculations

	Calculation	RoED	West End	Combined	Item
A		6,537	10,563	17,100	Requirement (from Strategy 1 of the adopted Local Plan 2013-31)
B	A/18	363	587	950	Annual basic requirement for each of the 18 years covered by the Local Plan
C	Bx5	1,816	2,934	4,750	Basic five year requirement
D	Bx6	2,179	3,521	5,700	Requirement to have been delivered by 31 March 2019
E		2,932	2,473	5,405	Completions from 01 April 2013 to 31 March 2019
F	D-E	753	-1,048	-295	Difference between shortfall and surplus
G	C+F	1,063	3,982	5,045	Five year requirement (excluding 5% buffer)
H	Gx1.05	1,116	4,181	5,297	Five year target (including 5% buffer)
I	H/5	223	836	1,059	Annual target (assuming 5% buffer)

Supply element at 31 March 2019 expected to deliver 01 April 2019 - 31 March 2024					
J		2,470	2,229	4,699	Extant permissions (including sites sleeping / under construction) and Goodmores Farm, Exmouth (in the process of being approved at time or report's preparation)
K		181	N/A	181	Axminster Masterplan projections
L		N/A	687	687	Cranbook expansion zones projections
M		253	5	258	Future windfalls
N	J+K+L+M	2,904	2,921	5,825	Total deliverable supply
O	H-N	1,788	-1,260	528	Surplus / Deficit (assuming 5% buffer)
P	N/I	13.01	3.49	**5.50**	Years of land supply (assuming 5% buffer)

4.5 Row P in the above assessment shows that taking into account all deliverable sites across the district as a whole, the Council is able to demonstrate 5.50 years of land supply. This has decreased since the last check due to the revised NPPF stating that allocated land and land with acknowledged development potential cannot readily be included in five year land supply calculations without planning permission having been passed and, also, the slowdown in building at Cranbrook.

4.6 According to the above calculation, there is a surplus (number of dwellings above the required supply for the next five years) of 528 dwellings (row O) which is a significant buffer (in addition to the 5% buffer) capable of allowing for non-implementation or reduced buildout rates of a number of sites if necessary. This averages out at nearly 106 dwellings per year surplus over the five year period.

4.7 The calculation also demonstrates the impact that West End sites have on the Five Year Land Supply. Clearly, due to the scale of development at the West End, a lower than five year supply (3.49) has a big impact on the overall combined supply for the district as a whole (the Rest of East Devon has a supply of 13.01 years when the West End is excluded).

5 Appendix

The appendix lists:

i) Overall completions and demolitions during the Local Plan period;
ii) UPRNs of individual completions during the 2018/19 monitoring period;
iii) Projections for the rest of the Local Plan period.

Appendix 1 - List of sites where there have been completions and/or demolitions during the Local Plan period as recorded by the Housing Monitoring database
