The Jurassic Coast Trust closed in January 2025. Responsibility for the World Heritage Site now sits with Dorset Council and Devon County Council with East Devon DC staff participating in Site governance. The World Heritage Site is designated for its unique geological diversity and is managed in order to protect and celebrate its Outstanding Universal Value.

This should be amended in appendix 3 as well

4. If you have any other general comments about the Heritage Strategy, please write your feedback in the box below.

(Continue on a separate sheet if necessary)

Historic England provide regional information about building stone that could be promoted by the strategy to help building conservation - <https://historicengland.org.uk/images-books/publications/building-stones-england-devon/>

Devon RIGS group may also be able to help with identifying stone quarries in the area. It should be noted that some old stone quarries are geological SSSIs but this DOES NOT bar future extraction of stone for building conservation use. It can actually be of benefit to the SSSI.

East Devon District are looking to increase community engagement with heritage assets across the district. We ran a pilot project in 2019 in East Budleigh to build skills and knowledge amongst volunteers to help manage, protect and enhance our heritage assets.
